

"The Franchise" Zach Gargus Speaks: Another month of GNL action another Commissioner Report that is words after words after words after words. When will this fool actually provide a report with rankings, stable wars, points, stats, and not just words, words and more words. Then we have all of these so called managers like **VIRUS** who **ONLY** have 18 wrestler's in this league and puff their chest out while "dominating" everyone else. Congrats on spending more to win more you really showed everyone how amazing you are! Meanwhile, **TBASID** are actually impressive because they won 3 singles titles, 2 single's titles and the Battle Royal with only 3 wrestler's! If you boys want to go to war with E\$T and take down the flooding VIRUS just holla we got your backs. E\$T 2018
