ISSUE: Should we continue listing the number of consecutive cycles that wrestlers and managers have held a title in the *IWA Report*?

- Only list when a wrestler receives a prize for retaining a belt, such as regional champions who win 10 free matches for holding onto their title. The rest of the time, including that “Manager X held the titles for 6 cycles, Manager Y 3 cycles, and Manager Z retained the titles” is basically clutter to me. Eliminating that less-important info will streamline the results, make for easier reading, and sometimes allow for larger font sizes.
- Include the number of times in a row that wrestlers hold the same title, but don’t bother listing that info for managers. It’s impressive when wrestlers successfully defend their majors, but less so when players win the same title using *different* wrestlers.
- Continue listing the number of times in a row that wrestlers and/or managers hold the same title. I enjoy seeing that info, and don’t want to have to compare the new *Report* to the previous issue to find it out.
